# CARMEL PINE CONE

The Year, $1.50 ISSUED EVERY THURSDAY The Copy, 5 cents

OCT. 18, 1917 CARMEL-BY-THE-SEA, CAL. VOL. III, NO. 38

### Be On Hand

A meeting of parents to assist in the organization of a Junior Red Cross chapter in the local school will be held at the schoolhouse to-morrow afternoon, at 3:30. A large attendance is desired.

### A Popular Loan

The Pine Cone is reliably informed that in a short time those who have no more than $5 to invest in Government securities, may purchase a war-savings certificate, bearing interest at the rate of four per cent, in denominations of that value.

It is proposed to go further still toward giving people of small means an opportunity to help in financing the war. They will be enabled to purchase stamps with a view of accumulating enough to purchase the $5 certificates.

Section 2. Care of garbage, ashes and waste:

Every tenant, lessee or occupant or owner of any premises where garbage is created shall provide on such premises, in a suitable place, one or more water-tight galvanized metal garbage receptacles, fitted with two handles, of not less than five gallons, nor more than sixteen gallons capacity, with tight fitting metal cover, for receiving all garbage created on such premises between times of collection and removal. The cover of said garbage receptacle must be kept on at all times except during the time of putting in or removing of the garbage.

All garbage must be removed from, or burned on the premises where garbage is created.

Every tenant, lessee, occupant or owner of any premises where rubbish and refuse is created shall, in addition to the garbage receptacle, provide on such premises one or more receptacles acceptable to the Commissioner of Health and Safety to contain all waste which may accumulate upon said premises between removals.

All empty cans, jars or vessels containing residues subject to mold, souring and putrefactive decay must be scalded out with boiling water before placing in waste receptacle.

All garbage receptacles are to be kept clean and in a sanitary condition by the owner or user.

All receptacles containing garbage or waste shall be located in such places as to be readily accessible for removing and emptying the same, but shall not be placed within the limits of any street or alley within the corporate limits of the City or any place where the same might create a nuisance.

Section 3. Ashes: All ashes, if deposited on the premises, must be covered with at least six inches of soil, and must be within the lot boundaries of the occupied premises, or on the premises owned or controlled by the occupant of such premises, otherwise they must be placed in separate galvanized metal garbage receptacles, fitted with metal covers, for periodical removal by the garbage collector. All waste shall be removed as often and as soon as the receptacles provided therefor are filled.

Section 5. Burning of garbage and waste and creating nuisance.

Garbage may be burned in stoves, fire places, or special out of door apparatus, and providing no garbage, waste or manure shall be burned in the open air upon any premises within the corporate limits of the City of Carmel-by-the-Sea in such a manner as to create a dense or offensive smoke or odor. Any such dense, offensive, or odorous smoke is hereby determined to be a public nuisance.

Section 6. Keeping of swine prohibited.

It shall be unlawful, and it is hereby declared a nuisance for any person or persons to keep or cause to be kept any swine whatsoever within the corporate limits of the City of Carmel-by-the-Sea.

Section 7. The care, treatment and disposal of manure.

Every owner, lessee, tenant or occupant of any stable, barn, pen, apartment or enclosure in which any horse, cow, barnyard fowl or other animals are kept, or any place where manure or urine from such animals accumulates, shall at all times keep or cause to be kept the said stable, barn, pen, apartment or enclosure and the appurtenances thereof in a cleanly and wholesome condition, and shall provide for the removal of such manure and urine, in accordance with the following provisions, to-wit:

Unless all manure accumulating at any such places described above be removed every three (3) days, boxes or receptacles of a design and construction acceptable to the Commissioner of Health and Safety shall be provided by each owner, lessee, tenant or occupant of such places, and said boxes or receptacles shall be used only for the purpose of containing the accumulation of said manure and shall be kept tightly closed at all times except when manure is being placed therein or removed therefrom, and in no instance shall manure be placed in said boxes or receptacles in such manner as to prevent the tight closing of the lid. Said boxes or receptacles shall be proof against access to the contents thereof by flies. The contents of said boxes or receptacles shall be removed as often as filled, or oftener if so required by the Commissioner of Health and Safety. Any manure so removed must not be stored or gathered into piles if used as fertilizer within one hundred (100) feet of any dwelling unless used within two days. Any manure stored or gathered into piles between one hundred (100) feet and five hundred (500) feet of any dwelling must be used within twelve (12) days.

Section 8. Power of Commissioner of Public Health and Safety to order removal of garbage or waste.

If any person, firm or corporation fails or neglects for a period of three days after written notice to have any garbage, waste or manure removed, the Commissioner of Health and Safety may direct the same to be removed by the Collector, and for this purpose the Collector, Health Officer or Commissioner of Health and Safety may enter upon the premises and remove or cause to be removed all such garbage, waste or manure so condemned and ordered to be removed, and the cost of the removal shall be a charge and lien on such premises or may be collected in a personal action against the owner or occupant of said premises.

The refusal by the owner or occupant of any premises to allow or permit such garbage, waste or manure to be so removed shall be deemed a misdemeanor.

Section 9. The City to have exclusive right to collect garbage and waste.

It shall be unlawful for any person, firm or corporation, except the City of Carmel-by-the-Sea, its duly authorized agents, servants, employees or licensees to collect or gather garbage or waste within the corporate limits of the City of Carmel-by-the-Sea. The Board of Trustees may enter into an agreement with and license any person, firm or corporation as collector for the removal of garbage and waste from said city, and the rates of removal for such garbage and waste and the mode of collection of such rates shall be provided in Section 10 hereof.

Section 10. Rates and fees for the collection of Garbage and Waste.

A charge shall be collected from the owner, lessee, tenant or occupant of all occupied premises within the corporate limits of the City of Carmel-by-the-Sea for services rendered in the removal of garbage and waste. The charges for such collections shall be as follows:

For the removal of the contents of a single garbage, ash or waste receptacle .....15 Cents

For one removal per week, garbage and waste 50 Cents per month

For two removals per week, garbage and waste....$1.00 per month

For three removals per week, garbage and waste $1.50 per month

For six removals per week, garbage and waste....$3.00 per month

The collector is hereby authorized to collect the fees for such removals at the above provided rates in advance from all non-residents of the City of Carmel-by-theSea.

The foregoing charges and fees are for the collection and removal of garbage and waste created in the normal use of occupied premises and shall not be construed from preventing the Board of Trustees of the City of Carmel-by-the-Sea from imposing or fixing reasonable extra charges for the removal of any excess amount of garbage and waste by the collector.

The said charges shall be collected by the collector of garbage and waste on the removal of such garbage and waste, or said collector may make arrangements with the occupant, owner or tenant of any premises for payment at periods not exceeding one month.

Section 11. Scattering garbage or waste on surface of ground.

It shall be unlawful for any person, lessee, tenant or occupant of any premises in the City of Carmel-by-the-Sea to throw, place or scatter any garbage upon the surface of any premises without causing the same to be securely covered with earth immediately thereafter, or to throw, place or scatter garbage on the surface of any vacant lot, enclosed or unenclosed, or to bury the same on any vacant lot, enclosed or unenclosed without the consent of the owner of such lot, or after being notified by the proper authorities that such practice is a menace to the public health and to cease such practice.

It shall be unlawful for any person to throw, place, or scatter any waste of any description upon the surface of any street, alley, or vacant lot, or other premises, enclosed or unenclosed, in the City of Carmel-by-the-Sea, with the following exception, namely, weeds, grasses, garden trimmings, leaves, and pine needles may be deposited in the depressions, ruts, or water courses on unpaved and sandy streets for the purpose of holding and consolidating the sand.

Section 12. Commissioner of Health and Safety and the Health Officer to enforce ordinance.

It shall be the duty of the Commissioner of Health and Safety Marshal and the Health Officer to enforce the provisions of this Ordinance. The Commissioner of Health and Safety Marshal and the Health Officer, or the agents and inspectors appointed by such Commissioner of Health and Safety Marshal or the Health Officer shall have power and authority to enter all premises at and during reasonable hours for the purpose of determining whether or not the provisions of this Ordinance are being violated.

Section 13. Non-liability for accidents or damage.

The City of Carmel-by-the-Sea or any of its agents or officers, other than the Collector of garbage and waste, shall not be liable for any accidents, damages or neglect of any kind or nature arising from the collection and removal of garbage and waste. The Collector shall carry the necessary Industrial Accident insurance as provided by the laws of the State for the benefit of employees. Upon his failure so to do, the Board of Trustees may provide such insurance and charge the premium therefor to said Collector, who shall reimburse the City of Carmel-by-the-Sea for the amount paid for such insurance, on demand.

Section 14. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment in the County Jail of Monterey County not exceeding ninety (90) days or by a fine not exceeding Three Hundred Dollars ($300.00), or by both such fine and imprisonment. The Judgment imposing the fine may provide for its collection by imprisonment at the rate of one day for each $2.00 of the fine.

## WEEKLY GREETING

*I cannot praise a fugitive and cloistered virtue, unexercised and unbreathed, that never sallies out and sees her adversary, but slinks out of the race, where that immortal garland is to be run for, not without dust and heat.—Milton.*

## MAKE HAY NOW

The war is teaching American youth one important lesson, and that is the importance of special training in some art, craft or profession. The downtrodden workingman, seeking vainly for employment, has been superseded by the mechanic, who has mastered his trade, and is now able to dictate his own terms to those who would hire him. It is doubtful if the present rates of compensation for work of every description have ever been equalled in this country, and still in many useful callings the demand for the highest skill is far in excess of the supply. This rule applies not only to electricians, carpenters, machinists, blacksmiths and boilermakers, but to the learned professions as well, while unskilled manual labor is sharing in the general prosperity. Meanwhile, although the prices of food, clothing and other necessities have reached a point that takes the fine edge off the increased earnings, present conditions offer opportunities for prudent saving that no one can afford to neglect. The moment the war ends wages and salaries will begin to fall, and they probably will continue to fall until they reach a normal plane. The release of thousands of skilled men from the army will give a decided impetus to the downward movement. Every clear-headed person will see that now is the time not only to make hay, but to stow it away in the barn.

### Same Here

A summer visitor at Ogonquit, Me., said to an old lady living in the village that it must be very lonesome there after the summer visitors had departed. The native replied: "Not a bit of it; it is a comfort to put your foot out of doors without stepping on an artist."
